EXPERIMENT NO 2

Sketch a Simple Prototype of a Bus Ticket Booking System using Figma Tool

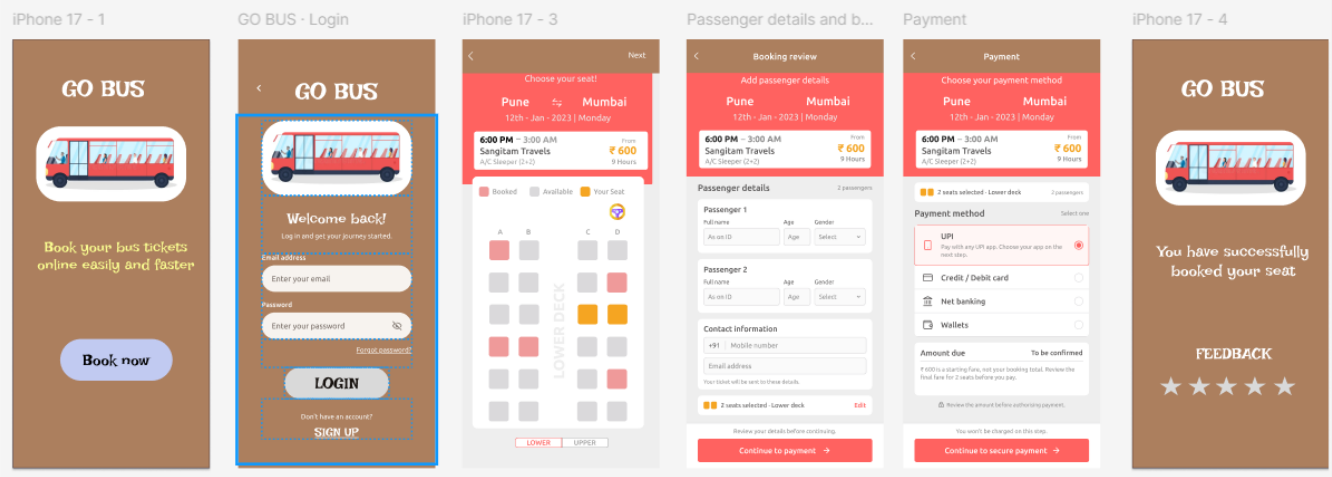

Aim

To design a simple prototype of a Bus Ticket Booking System using the Figma tool, providing an interface for searching buses, selecting seats, and booking tickets.

Procedure

1. Open Figma and create a new design file.
2. Create a mobile screen frame using the Frame tool.
3. Design the Home Page with the title “Bus Ticket Booking” and input fields for From, To, Date of Journey, and a Search Buses button.
4. Create a Bus Selection Page displaying available buses, departure times, arrival times, ticket prices, and a Select Seats button.
5. Design a Seat Selection Page with available and booked seats in different colours.
6. Create a Booking Summary Page displaying passenger details, selected seats, journey date, and total fare.
7. Add a Payment Page with payment options and a Confirm Booking button.
8. Use the Prototype tab to connect the screens and simulate the booking flow.
9. Preview the prototype using the Present button.

OUTPUT:

Result

A simple interactive prototype of the Bus Ticket Booking System was designed using Figma, allowing users to search for buses, select seats, view booking details, and proceed to payment.
